

Your Invitation

The Australasian Evaluation Society (SA Branch) is proud to announce a special event to launch its 2009 program.

Guest speaker Professor Chris West, Chief Executive Officer, Zoos SA

As well as his role in Zoos SA, Professor West is Professor of Zoology at Adelaide University, Professor of Biodiversity Conservation at Flinders University and Visiting Professor of Conservation Medicine at Liverpool University

On Track in Major Change? The Case of the Adelaide Zoo

Professor West is leading Zoos SA through a major change process. So what's involved in taking a large non-government organisation through a process like that? And (more importantly, from the standpoint of evaluation), how do you know whether you're staying on track?

This event should be of particular interest to evaluators, to leaders of change management, particularly in non-government organisations, and to those involved in the Natural Resource Management sector.

Following Professor West's address, the SA Branch committee, will launch the AES (SA) Program for 2009.

** Drinks and light refreshments will be served.*

Time: 5.15 pm sharp for entrance to the Zoo. **(From Plane Tree Drive)**
The event will conclude at 7 pm.
Date: Tuesday 21st April 2009
Venue: Adelaide Zoo

Places at this event are strictly limited. Register early if you wish to attend.

NB: Be at the service gate entrance, Plane Tree Drive, at 5.15 *sharp* for after-hours admittance

For enquiries or to register to attend, contact

Dr Gill Westhorp
Co-convenor, SA Branch
