

*Ethics - who benefits?  
Heather Aquilina & Helen Liedel*

- Who we are

# *Impetus*

- Who we are
- Four HRECS – 2 hospital, 1 health, 1 Aboriginal specific

# *Impetus*

- Who we are
- Four HRECS – 2 hospital, 1 health, 1 Aboriginal specific
- Contrary to usual process

# *Impetus*

- Who we are
- Four HRECS – 2 hospital, 1 health, 1 Aboriginal specific
- Contrary to usual process
- Why are we doing this?

## *Research ≠ Evaluation*

- What was HREC for?

## *Research ≠ Evaluation*

- What was HREC for?
- HREC requirements?

## *Research ≠ Evaluation*

- What was HREC for?
- HREC requirements?

- Confusion – is it a QA, is it low risk?

# *Dangers*

# Dangers

# Dangers

# Dangers

# Dangers

"We've considered every potential risk except the risks of avoiding all risks."

# Dangers

"We've considered every potential risk except the risks of avoiding all risks."

## *Evaluation ≠ Research - AES Ethics*

- The ethics of the ethics procedure

## *Evaluation ≠ Research - AES Ethics*

- The ethics of the ethics procedure
- AES to reassert evaluation ethics – robust and comprehensive. This is the check and balance for evaluation that HREC is for research

## *Evaluation ≠ Research - AES Ethics*

- The ethics of the ethics procedure
- AES to reassert evaluation ethics – robust and comprehensive. This is the check and balance for evaluation that HREC is for research
- Covers benefits, risks, protection of vulnerable people whilst also ensuring they get a voice
