

# Evaluative thinking and strategic learning - nice words, do they make any difference?

Children and Youth Area Partnerships (CYAPs)

2014-2018

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

## **Evaluative thinking and strategic learning - nice words, do they make any difference?**

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

### **Three reflection questions:**

- 1. What does evaluative thinking and strategic learning mean and look like in a government-led Collective impact initiative? What are the tensions and 'easy fits'?**
- 2. What difference has it made to our work? What are the implications on our resources, the intensity of the work, the impacts and ripples?**
- 3. Yeah but, so what? Has any of this actually sparked the transformation we are after?**

## Which made us consider:

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

What do we mean by  
transformation?

Of the evaluative pieces  
what was transformative?

How and what did it  
transform?

What else has been  
transformative?

## CYPAs Vision

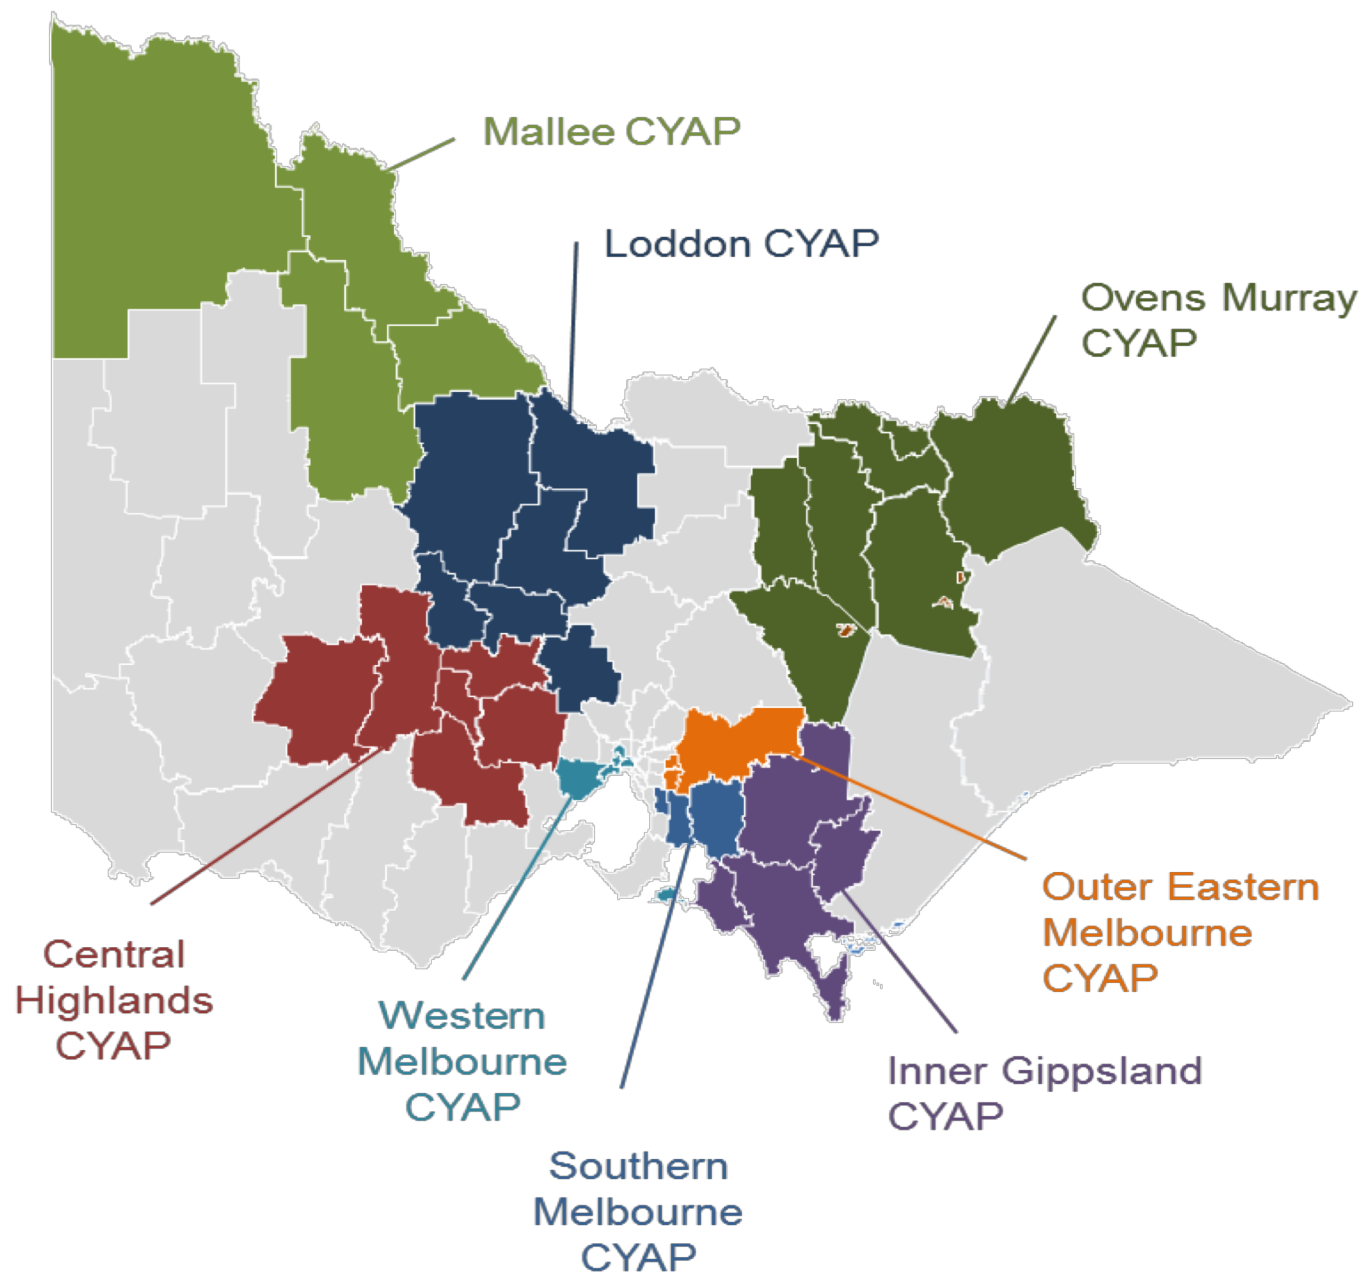

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

**For all children and young people to grow-up happy, healthy, resilient, engaged and able to reach their potential.**

**WHAT  
NEXT**

Implications for  
future action

**WHAT**

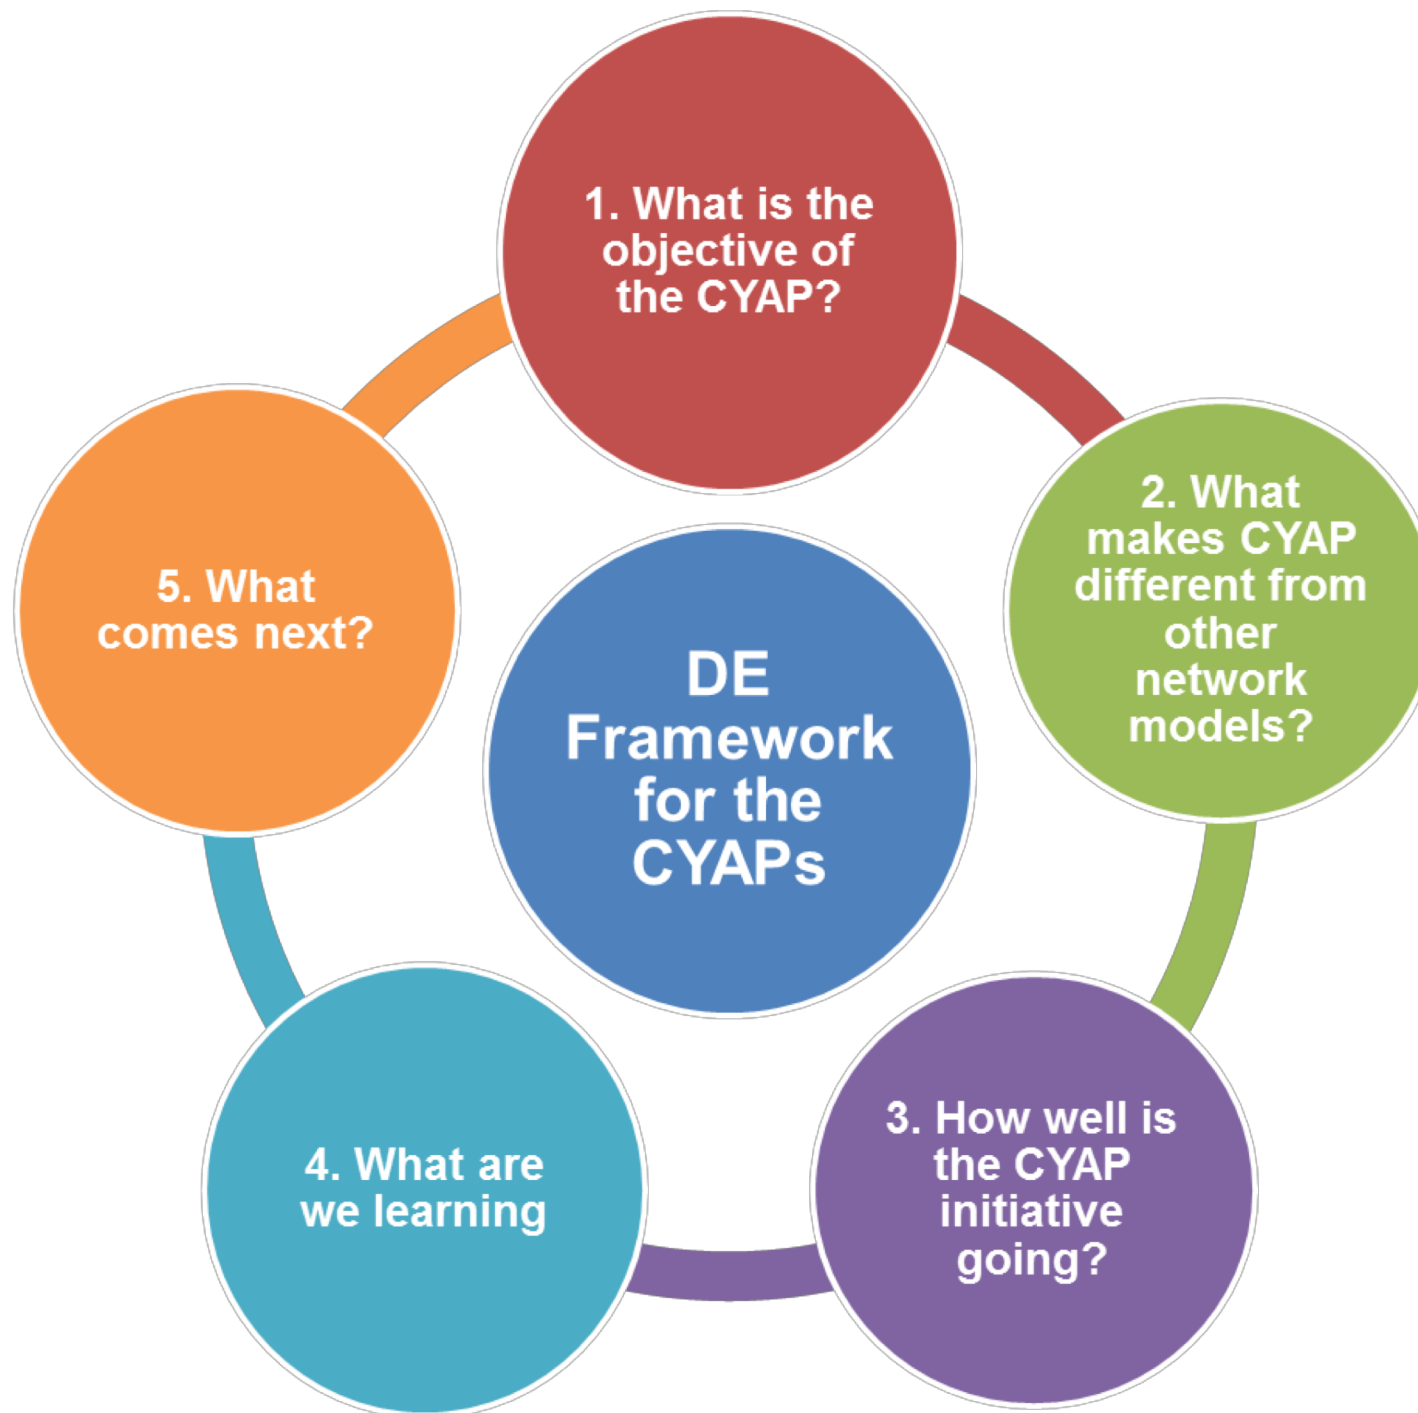

What you observe

**SO WHAT**

Your reflections on  
that

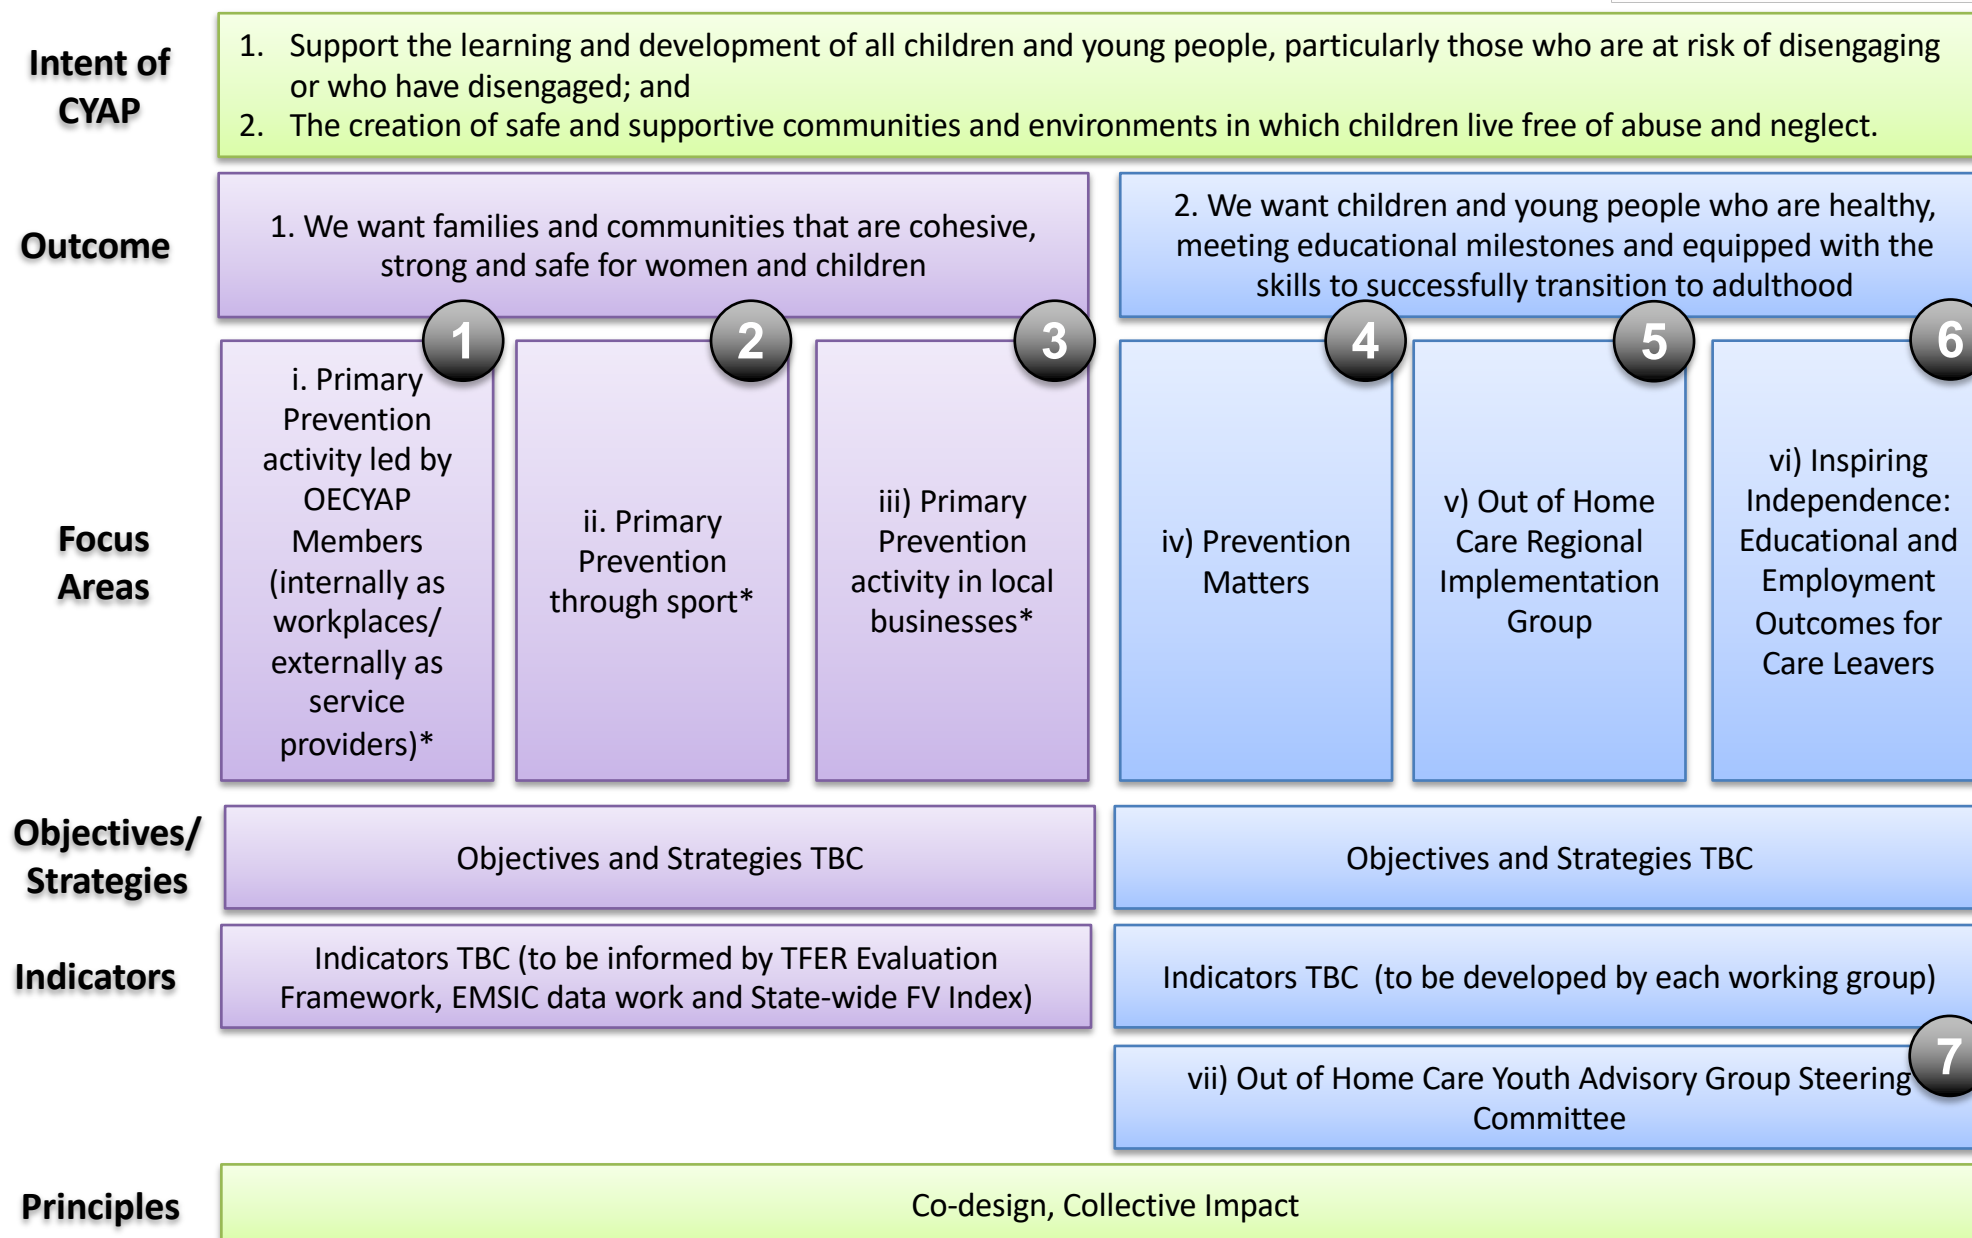

# Outer East Children and Youth Area Partnership

## Key Directions 2016

\*Agreement that any activity undertaken will link to and support *Together for Equality and Respect: A Strategy to Prevent Violence Against Women in Melbourne's East 2013–2017*.

## Scenario A

## Scenario B

## So What? Key Reflections

Difference in role/style of leadership for collective impact and systems change

Service integration, not collective impact

Co-design and action learning builds momentum

Doing too much?!

## What Next? Legacy

Define enabling behaviours, mindsets and values for CI and systems change

Recommit to key principles

Embed co-design and action learning

Pivot, find our place, clarify our identity

## What made it work?

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

- Focus on deep learning
- Coaching and capability building – ‘peeking behind the curtain’
- Fertile Soil and Supportive Context
- ‘Outside Looking In’

# BRIGHTER FUTURES

## FOR OUTER EAST KIDS

Outer Eastern Melbourne

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

Collective  
Impact

How can we support young people to envision a future of meaning and purpose?

1 in 10 does not have a stable relationship with a trusted adult

How can we support young people to enjoy a positive sense of belonging?

9 in 10 have no work experience

1 in 3 is likely to have nowhere to live when they turn 18

How can we support young people to build skills, knowledge and confidence for employment?

2 in 5 have a mental health concern

How can we support young people to leave school with skills for life?

2 in 5 attend school less than 4 days a week

How can we support children to build foundations for future learning?

How can we help young people access safe and stable places to live after 18?

Every year, around 60 children in the Outer East need to be cared for by extended family and the community. This is known as out-of-home-care

1 in 3 is behind in reading

How can we support children and carers to access early childhood services?

4 in 5 is not attending 3 year old kindergarten

320 kids are in out-of-home-care in the Outer East...

Of these...

How can we support all families to stay together safely?

## Challenges

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

- **Members understanding of Developmental Evaluation**
- **Timing**
- **Recognising failure as a learning/success**
- **Change in Steering Committee membership due to restructure of member organisations**
- **Members understanding of collective impact**
- **Language**

# WESTERN MELBOURNE

## How we started

The trigger was the Philip Cummins Report.

We invited senior managers from Vic State Government, Local Councils, community organisations and local business to join the steering group.

Reviewed existing collaborations and identified gaps, ensured the CYAP did not duplicate existing work in the West.

Looked at current project, data and local knowledge.

## The Focus

The Steering Group ensured they kept the focus on vulnerable children and cross-sector collaboration, despite requests for the platform to be focused on specific projects.

To keep the engagement of LGAs the decision was made to focus on place rather than issue.

## Set up 4 working groups

1. Laverton
2. North Melbourne / Flemington
3. Braybrook
4. Werribee

### Laverton

A forum for action

Strength of the chair – Peter 'Cut to the chase'.

Was able to pull people in. Things kept moving.

Focus on action not talk.

Local Principal played a critical role.

'Individual interests aligning with the area partnership interests'.

Road Block – data sharing & privacy, So Data Sharing Project escalated to VCRU and Children's board.

Spin offs – \$200k for funding for crime prevention "Linking Laverton", Chatter Time, Co-location early years and school, 2nd hand bikes for the school.

1.

### North Melbourne/Flemington

Over the past 12 months the working group has faced some challenges including:

- Changes in leadership
- Resourcing for the backbone functions
- Agreement on a common agenda

The group is now firming up a focus and how to use a collective impact model.

2.

### Braybrook

Timeline 2005 to date.

Braybrook Partnership → Transition to Independence Project → CYAP.

Core group has expanded and contracted in response to a constantly changing external environment of funding and policy changes.

"External factors shifted us. Youth connections defunded. We struggled with this gap. Who is our community? Where are the gaps? We went back to the drawing board".

Work on the ground already being done by Council, LLEN, YouthNow, the schools, Chisholm, English Language School.

Range of community engagement, research papers, forums, discussion papers, frameworks, cycles of exploration, agreement, failed funding applications.

Needed revitalising.

Council funded a new worker who created the "Job Club" and facilitated business engagement leading to work experiences and jobs.

"We could be more structured"

"Lack of structure has enabled it to morph into what it has needed to be".

Questions:

- What is success?
- Who left and why?
- What could have done better?
- Could we be more structured?

Next Step:

Get Braybrook Employment Pathways back together.

### Werribee

- Have grappled with the needs of the area
- Focus on Youth and linkages with local school
- Working on Police Early Identification Tool
- Consideration of how Collective Impact is used.

4.

## What next for the Steering Group?

We need a reset:

- Purpose?
- Role?
- Commitment?
- Deliverables?
- Success?

- How do we measure performance?
- Do action groups need to be focused on cohorts?
- Is it about the projects or the system?

## Key learnings from the DE process

CHILDREN AND YOUTH  
AREA PARTNERSHIPS

- **Risk of falling into traditional contract manager/ provider relationship**
- **Dual role of evaluator/coach**
- **Importance of the immersion of evaluator in the team**
- **Time factor/resourcing**
- **The importance of readiness to undertake a DE**

# What leads to transformation in the CYAPs
